PART ONE: TECHNICAL ASPECTS

1. BACKGROUND

The Government of the Republic of the Philippines with the support of the European Union is implementing the Justice Sector Reform Programme: Governance in Justice II (GOJUST II). GOJUST II is funded by the European Union to the value of EUR 19,000,000 and implemented by British Council and United Nations Office for Project Services (UNOPS). GOJUST II builds on and continues the work of the predecessor programme, GOJUST that was implemented from April 2016 to September 2020. GOJUST II is implemented in joint co-financing with the Spanish Agency for International Development Cooperation (EUR 1,000,000). The overall objective of GOJUST is: *to contribute to inclusive and sustainable socio-economic development through improved access to justice for all in the Philippines. Specifically, it aims to develop more responsive and accountable justice services.* It includes two components focusing on justice and human rights, respectively. The programme is being implemented from December 2020 to June 2025.

GOJUST II seeks to achieve four major result areas, as follows:

- Result 1 Justice sector coordination mechanisms are improved
- Result 2 Strengthened institutional efficiency and effectiveness in the delivery of justice services
- Result 3 Increased access to the justice system for vulnerable groups, including women
- Result 4 Justice policy and practice is informed by evidence and responds to justice needs

Justice and Human Rights policies are at the heart of the Philippine Development Plan 2017-2022, which for the first time includes a dedicated chapter on justice, chapter 6, titled “Pursuing Swift and Fair Administration of Justice”. The chapter enshrines the principle of coordination as a mechanism for bringing about long term and sustainable justice sector reform. The focus is on the enhancement of “civil, criminal, commercial and administrative justice” and the improvement of sector efficiency and accountability while also directing the CHR “ to intensify its efforts to facilitate access to justice by improving, monitoring and evaluation, empowering the people living in poor and marginalised situations to seek response and remedies for injustice, improving legal protection, awareness and aid, enhancing civil society and parliamentary oversight, addressing human rights violations in the justice sector and, strengthening linkages between formal and informal justice providers.

The justice component will continue and expand some previous GOJUST activities such as improved coordination between and within the justice sector agencies and case management automation interventions to strengthen capacities to decongest overburdened courts, prosecution offices, and reducing pre-trial detention. GOJUST II will also focus on new result areas such as increased access to justice for vulnerable groups and evidence-based policy research and advocacy to inform policy making for improved justice outcomes.

The programme is managed by a Programme Steering Committee (PSC) led by representatives from Supreme Court, the Department of Justice, and the Department of Interior and Local Government. A Programme Director has also been appointed to be the main focal point and point of coordination for the smooth implementation of the programme.

In line with the Indirect Management component of the Financing Agreement, a Pillar-Assessed Contribution Agreement (ACA/2020/ 418-821) for the provision of *Technical*

Assistance for the Justice Sector Reform Programme: Governance in Justice II (GOJUST II) was awarded to the **British Council** on 7 December 2020 for a period of implementation of 54 months. The contract requires the provision of a Technical Assistance Team consisting of four (4) key experts that will be responsible for the four (4) result areas. In addition, the contract also includes the provision of 3,200 working days of non-key experts that will support the work of the key experts in the delivery of results under the programme.

Background of the mission

In 2012, RA No. 9208 or the Anti-Trafficking in Persons Act of 2003 was amended through RA No. 10364 and established the Inter-Agency Council Against Trafficking (IACAT). IACAT was created as a central coordinating body to oversee the implementation of the law. It is chaired by the Secretary of Justice. "It is mandated, among others, to develop comprehensive and integrated programmes to prevent and suppress trafficking in persons, establish the necessary institutional mechanism for the protection and support of trafficked persons, and ensure the timely, coordinated, and effective response to cases of trafficking in persons particularly in the investigation and prosecution of trafficking persons cases."¹

The Council is composed of the following:

1. Secretary, Department of Foreign Affairs
2. Secretary, Department of Labor and Employment
3. Secretary, Department of the Interior and Local Government
4. Administrator, Philippine Overseas Employment Administration
5. Commissioner, Bureau of Immigration
6. Chief, Philippine National Police
7. Chairperson, Philippine Commission on Women
8. Chairperson, Commission on Filipinos Overseas
9. Executive Director, Philippine Center for Transnational Crimes
10. Coalition Against Trafficking In Women – Asia Pacific (NGO representing the women sector)
11. Blas F. Ople Policy Center and Training Institute (NGO representing the OFWs sector); and
12. International Justice Mission (NGO representing the children sector).

As part of the effort to effectively prevent and suppress trafficking in persons and to successfully prosecute trafficking persons cases, the law also mandated the creation of an Anti-Trafficking in Persons Database. Section 16-A of the law mandated "All government agencies tasked under the law to undertake programmes and render assistance to address trafficking in persons shall develop their respective monitoring and data collection systems, and databases, for purposes of ensuring efficient collection and storage of data on cases of trafficking in persons handled by their respective offices. Such data shall be submitted to the Council for integration in a central database system." The law further requires the Council to ensure the "harmonization and standardization of databases, including minimum data requirements, definitions, reporting formats, data collection systems, and data verification systems." The law requires that the database shall at the minimum have the following information:

¹ https://iacat.gov.ph/?page_id=63.

“(a) The number of cases of trafficking in persons, sorted according to status of cases, including the number of cases being investigated, submitted for prosecution, dropped, and filed and/or pending before the courts and the number of convictions and acquittals;

“(b) The profile/information on each case;

“(c) The number of victims of trafficking in persons referred to the agency by destination countries/areas and by area of origin; and

“(d) Disaggregated data on trafficking victims and the accused/defendants.”

To implement the abovementioned mandate, IACAT is embarking on an Anti-Trafficking Data Harmonization Project where they intend to develop a comprehensive, harmonized, and unduplicated data collection system, case monitoring, and analysis of Trafficking in Persons (TIP) across agencies which shall aid the development of timely and need-focused policies and programmes to address trafficking in persons.

The project is divided into two layers: (1) Data Harmonization layer through the formulation and development of Data Harmonization Guidelines on TIP cases that would clearly set and harmonize the data requirements, definition, indicators, reporting formats, data collection and verification, including analysis, sharing and management of information; and (2) a Data Management layer that would map available database and data gaps, tools and resources, including identifying appropriate software, platform, required equipment and specification towards either the enhancement of existing case management system or development of a new one.

The envisioned TIP Case Management Framework is divided into two aspects of casework data management:

1. **Enforcement-centered**- Focuses on the success rate of enforcement and prosecution. This pertains to the investigative and the legal aspects from rescue until final conviction.
2. **Victim-centered case management (also called Survivor-centered)** – Focuses on the monitoring of outcomes related to interventions at the level of the victim and her family and community.

This corresponds to monitoring programmes and services to ensure the safety, recovery, and rehabilitation of the victim of trafficking.

Since there are multiple agencies involved in this endeavor, IACAT needs to develop Data Harmonization Guidelines on TIP Cases to ensure that participating agencies are able to exchange data in a coherent manner. For this purpose, a Technical Working Group will be created to develop the Guidelines.

Data harmonization is defined as the “act of reconciling the definition (semantic) and representation formats (syntax) data elements in a domain of interest. It entails a set of activities that improves the consistency in the use of data elements in terms of their meaning and representation format. Data harmonization will identify a set of core data elements (data elements expressed using different descriptions but with identical meaning).”² “Harmonisation is an iterative process of capturing, defining, analysing and reconciling information, and it can be achieved in several different ways. The ultimate goal of data harmonisation is to enable the exchange, integration and interoperability of data among the individual information systems for making better decisions.”³

This mission will support the first layer of the project which relates to the development of the IACAT Data Harmonization Guidelines on TIP Cases.

9.1. The documents that must be submitted to form your tender response are listed at Clause 2.3.7 to this RFP. All documents required as part of your tender response should be

submitted to governanceinjusticeii@britishcouncil.org by the Response Deadline, as set out in the Timescales section of this RFP.

9.2. The following requirements should be complied with when submitting your response to this RFP:

- Please ensure that you send your submission in good time to prevent issues with technology – late tender responses may be rejected by the British Council.
- Do not submit any additional supporting documentation with your RFP response except where specifically requested to do so as part of this RFP. PDF, JPG, PPT, Word and Excel formats can be used for any additional supporting documentation (other formats should not be used without the prior written approval of the British Council).
- All attachments/supporting documentation should be provided separately to your main tender response and clearly labelled to make it clear as to which part of your tender response it relates.
- If you submit a generic policy / document you must indicate the page and paragraph reference that is relevant to a particular part of your tender response.
- Unless otherwise stated as part of this RFP or its Annexes, all tender responses should be in the format of the relevant British Council requirement with your response to that requirement inserted underneath.
- Where supporting evidence is requested as 'or equivalent' you must demonstrate such equivalence as part of your tender response.
- Any deliberate alteration of a British Council requirement as part of your tender response will invalidate your tender response to that requirement and for evaluation purposes you shall be deemed not to have responded to that particular requirement.
- Responses should be concise, unambiguous, and should directly address the requirement stated.
- Your tender responses to the tender requirements and pricing will be incorporated into the Contract, as appropriate.

10. CLARIFICATION REQUESTS

10.1. All clarification requests should be submitted to

- a) **For technical matters:** Senior Advisor Ingrid Rosalie L. Gorre, ingridrosalie.gorre@britishcouncil.org and copy governanceinjusticeii@britishcouncil.org
- b) **For administrative matters:** governanceinjusticeii@britishcouncil.org

by the Clarification Deadline, as set out in the Timescales section of this RFP. The British Council is under no obligation to respond to clarification requests received after the Clarification Deadline.

10.2. Any clarification requests should clearly reference the appropriate paragraph in the RFP documentation and, to the extent possible, should be aggregated rather than sent individually.

10.3. The British Council reserves the right to issue any clarification request made by you, and the response, to all potential suppliers unless you expressly require it to be kept confidential at the time the request is made. If the British Council considers the contents of the request not to be confidential, it will inform you and you will have the opportunity to

withdraw the clarification query prior to the British Council responding to all potential suppliers.

10.4. The British Council may at any time request further information from potential suppliers to verify or clarify any aspects of their tender response or other information they may have provided. Should you not provide supplementary information or clarifications to the British Council by any deadline notified to you, your tender response may be rejected in full and you may be disqualified from this Procurement Process.

11. EVALUATION CRITERIA

11.1. You will have your tender response evaluated as set out below:

Stage 1: Tender responses will be checked to ensure that they have been completed correctly and all necessary information has been provided. Tenders responses correctly completed with all relevant information being provided will proceed to Stage 2. Any tender responses not correctly completed in accordance with the requirements of this RFP and/or containing omissions may be rejected at this point. Where a tender response is rejected at this point it will automatically be disqualified and will not be further evaluated.

Stage 2: The completed Qualification Questionnaire (*if used*) will then be reviewed to confirm that the potential supplier meets all of the qualification criteria set out in the questionnaire. Potential suppliers that meet the qualification criteria will proceed to Stage 3. Potential suppliers that do not meet the qualification criteria set out in the Qualification Questionnaire (*if used*) may be excluded from the Procurement Process at this point. Where a potential supplier is excluded at this point, its tender response will be rejected in full and not evaluated further and the supplier will automatically be disqualified from this Procurement Process.

Stage 3: If a bidder succeeds in passing Stages 1 and 2 of the evaluation, then it will have its detailed tender response to the British Council's requirements evaluated in accordance with the evaluation methodology set out below. Information provided as part of Qualification Questionnaire (*if used*) responses may also be verified as part of this stage.

11.2. Award Criteria – Responses from potential suppliers will be assessed to determine the most suitable tender submission using the following criteria and weightings. Competitive costing criteria will only be used after the selection of a supplier according to technical criteria. The selected supplier will be asked to submit a separate financial proposal detailing daily fee rates.

We may contact prospective candidates for an interview between 23 to 26 September 2022

Criteria	Weighting	Max points
Qualification and Skills	30%	10 x 0.3
General Professional Experience	30%	10 x 0.3
Specific Professional Experience	30%	10 x 0.3
Competitive costing	10%	10 x 0.1
Total	100%	10 x 1

11.3. Scoring Model – Tender responses will be subject to an initial review at the start of Stage 3 of the evaluation process. Any tender responses not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Tender responses not so rejected will be scored by an evaluation panel appointed by the British Council for all technical criteria i.e. all criteria other than commercial costs, using the following scoring model:

Points	Interpretation
10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.
7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested, but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidders failure to provide all information at the level of detail requested.
5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder's failure to provide all of the evidence requested.
3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

11.4. Commercial Evaluation – Your “Overall Price” (as calculated in accordance with requirements of clause 3.3.7) for the goods and/or services will be evaluated by the evaluation panel for the purposes of the commercial evaluation. Prices must not be subject to any pricing assumptions, qualifications or indexation not provided for explicitly by the British Council as part of the pricing approach. In the event that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the British Council as part of the pricing approach, the British Council may reject the full tender response at this point. The British Council may also reject any tender response where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the relevant processes set out under the EU procurement rules. A

maximum offer score of 10 will be awarded to the tender response offering the lowest "Overall Price". Other tender responses will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

11.5. Moderation and application of weightings – The evaluation panel appointed for this procurement will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall tender score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

11.6. The winning tender response – The winning tender response shall be the tender response scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information or references relating to any Qualification Question responses) obtained by the Authority relating to any self-certification or other requirements referred to in the Qualification Questionnaire (*if used*). If any verification evidence requested from a supplier, or a relevant third party as may be referred to by the supplier in the Qualification Questionnaire (*if used*) as a party prepared to provide such information, is not provided in accordance with any timescales specified by the British Council and/or any evidence reviewed by the British Council (whose decision shall be final) does not demonstrate compliance with any such requirement, the British Council may reject that tender response in full and disqualify the potential winning supplier from the Procurement Process at that point.
